Adams
NURSERY Inc.
Westfield, Massachusetts

GUARANTEE

SIX MONTHS' GUARANTEE: We guarantee to furnish nursery stock in first class condition so that with proper aftercare, losses will be reduced to a minimum. Should any stock purchased at our retail prices fail to grow within six months, we will resupply; however, any labor incidental to planting replacements must be paid for by the purchaser.

Should we not have the same plants in stock we reserve the right to give credit for the amount paid or supply other plants of equal value.

We will cheerfully resupply any plant found not true to name, or we will refund the amount paid for the same, but it is mutually understood that at no time shall we be held responsible for a greater sum than the purchase price.

Our guarantee is void on accounts not paid within thirty days after date of invoice.

Landscape Department

We maintain a staff of competent men, trained and experienced to assist home owners in selecting the right plants for their proper locations. We shall be glad to submit plans and estimates, there being no obligation connected with this service, and no charge if plant material is purchased from us.

The following two types of service are available.

1. Bring a picture of your home and a sketch showing approximate measurements of your property to the Nursery Mart, and a trained landscape man can make a suggested plan from the picture and sketch. While there, you can see the different types of plants that have been recommended.
2. If you feel that your landscape problem is one that requires personal consultation on your home grounds, telephone for an appointment. Plans and estimates are included with this service by our trained experts whose only desire is to create beauty and a satisfied customer.

You can place confidence in us as thousands of others have done before. There is definitely a saving in cost, time and disappointment in proper selection of plants and good landscape design if one originally follows a planned program.

Change in Policy

Due to conditions beyond our control the labor shortage has become so critical that we are forced, at least temporarily, to discontinue our planting service.

Our landscape department, however, will continue to assist home owners with their planting problems. Adams Landscape Service includes personal consultation on your grounds with one of our trained landscape men. Just telephone us for an appointment.

On request we will be glad to suggest a reliable landscape gardener to take care of the planting of your order. A separate invoice will be rendered by him for this service.

Adams Nursery Mart

Conveniently located directly back of our office where you will find a comprehensive assortment of "Show Window Quality" plants on display.

Here you can see and select your evergreens, rhododendrons, azaleas, fruit trees, potted roses and perennials and many other "Better Plants for New England". Each will be labeled with name and price to save you time.

In addition we will have all the garden accessories such as fertilizers, insecticides, lime, peat moss, grass seed, etc.

Well informed salesmen will be handy to help you select the proper plants for the right locations, and answer any questions pertaining to their correct culture.

The Adams Nursery Mart will be open April 1st and every week day for the balance of the planting season during regular business hours. No business will be transacted on Sunday.

We offer you our experience of over one hundred years in solving your plant problems and invite you to visit our nursery mart. You may go where you please and stay as long as you like. You will not be approached unless you express a desire for service.

Plenty of parking space has been provided.

Evergreen Trimming and Spraying

To maintain health and preserve symmetry your evergreen plantings should be trimmed once a year preferably during the winter or summer months.

Spraying should be done as a preventive to avoid disease and infestation.

Our experienced men are properly equipped and at your service.

IMPORTANT

Change in Policy

Due to conditions beyond our control the labor shortage has become so critical that we are forced, at least temporarily, to discontinue our planting service.

Our landscape department, however, will continue to assist home owners with their planting problems. We shall be glad to submit plans and estimates—there being no obligation connected with this service, and no charge if plant material is purchased from us. Adams Landscape Service includes personal consultation on your grounds with one of our trained landscape men. You can place your confidence in their suggestions as thousands of others have done before. Just telephone us for an appointment.

On request we will be glad to suggest a reliable landscape gardener to take care of the planting of your order. A separate invoice will be rendered by him for this service.

MEMORANDUM

To Our Customers

Deliveries:

During the planting seasons our trucks frequently pass most points within a radius of fifty miles from Westfield. Retail deliveries will be made at no additional charge within this radius when they may be incorporated on our regular trips. There will be a charge for special delivery service and long distance truck delivery can be arranged at actual cost.

Shipping Season:

Our spring shipping season usually begins early in April and until about the first of June everything can be transplanted. Perennials and stock dug with a ball of earth can be moved at anytime during the summer. Our fall season starts with the digging of evergreens in August, followed in October by Deciduous trees and shrubs.

Terms:

We are glad to extend thirty day terms to established accounts. Also to open new accounts, via references, if order amounts to \$10 or more. On first orders, for less than \$10 please send cash. Orders for C.O.D. shipment must be accompanied by one-third of the amount. Our guarantee is void on overdue accounts.

Prices:

Prices in this book supersede all previous lists and are subject to change without notice. Except for those retail orders received from within the free delivery zone, prices are F.O.B. nursery.
